JUKEBOX is a concert performed by three musicians playing new music within a special installation where the audience plays the most important role. The concert is dedicated to children (10 - 11 years old) and their role of listening is explored in many different ways.

Are your ears musical instruments? Where does the concert take place when there is no stage? Can your ear guide you to move freely in the concert space when there are no chairs? What is your favourite listening position? How can you make music out of a sound just by listening differently? When you find yourself in an unusual situation, how well do you listen to your ears?

JUKEBOX is an intuitive musical parkour animated by the video installation in which the audience can move freely and be guided by its spatial hearing instincts. It's an experience that changes the perspective of what is music and what are musical instruments.

DOWN THE RABBIT HOLE

Down the Rabbit Hole is a music collective founded in summer 2017 and co-directed by clarinetist Filipa Botelho (Portugal), percussionist Kaja Farszky (Croatia) and cellist Hanna Kölbel (Germany). Hailing from throughout Europe, we are committed to the emerging scenes within contemporary music, identifying with the art of nerdy entertainment and thus pushing borders by building new dramaturgies for sound creations. Identified as performers of contemporary music we naturally search for extended techniques: we are wild curators of our concert programming and indulge into setting up a superb performance space. As a music collective, we love to challenge and support fascinating creative artists to follow their ideas. To make this juicy newness happen we play acoustic instrument, voice, touch, light... all to spark the senses of our young, old, big and small audiences.

JUKEBOX__ is a new music concert in which the audience plays the most important role.
